

Cable Management Tray

vari®

The Cable Management Tray helps you store cables off your Vari® Electric Standing Desk. Installed in minutes, the plastic cable tray easily connects to the back of your desk with the help of metal rotating mounting brackets. Plus, openings on both ends of the tray make it easy to route and store your cables. The Cable Management Tray works to support, not stretch, your cords as your desk rises. Add the Cable Management Tray to your desk to keep your work area clean and tidy.

- Available in Black or White
- Features Rotating Metal Mounting Brackets
- Openings on Each Side of Tray for Easy Cable Routing and Storage
