

# Wood Chair

No Tools  
Required

Holds up to  
250 lb (113.4 kg)

# vari<sup>®</sup>

1

Remove the seat from the packaging and align the holes in the bottom of the seat with the holes in the top of the leg base.

2

Turn in each screw loosely until all 4 are in place. Once all 4 screws are in, tighten to secure the seat. Remove the white protective plastic pieces from the chair legs before using the chairs.

3

Once assembled, you can safely stack up to 4 chairs together.

(800) 207-2587

**WARNING:** To prevent injuries and product failure, do not use this chair for standing, climbing, or leaning. Do not use if the chair is damaged or incorrectly assembled.
