

Beam Extension

vari®

The Beam Extension is meant to be used alongside the Beam in order to extend power to additional workspaces. It also helps to provide modesty between desks for a more private space. Made of durable, powder-coated steel, this easy-to-assemble extension can be set up in minutes.

- Designed to Attach to the Beam
- Easy to Assemble
- Provides 15 or 20 Amps of Power
- Includes Organized Cable Management
- UL 1286 Listed, UL Certified to BIFMA Standards
- Fits Easily Between Desks
- Easily Extends Power and Cable Management to Additional Workspaces
