

Privacy Booth

AN OPEN-OFFICE OASIS

The Privacy Booth is the perfect choice for bringing some privacy to open offices or common areas, offering a soundproofed, drop-in place for focus work or calls.

DIMENSIONS

SOUNDPROOFED SANCTUARY

With steel framing and sound-absorbing PET felt panels lining the interior the Privacy Booth helps keep the office noise out to create a private workspace.

MORE POWER TO YOU

With 2 AC outlets, 1 USB A, and 1 USB C port, you have the power to charge your laptop, tablet, or phone while on a call. (No matter how long it is.)

LIGHT AND BREEZY

Step inside and the smart sensor activates the overhead LED light, while two whisper-quiet fans circulate air to keep you comfortable.

OPEN AND BRIGHT

The clear, tempered glass door and see-through rear wall let natural light in to create a bright, spacious feeling inside.

MULTITASKING SPOT

The built-in, standing-height work surface serves as a touchdown place for laptops and the groove holds phones and tablets upright.

EASY TO SETUP

Assembly is simple, only taking 3 people about 20 minutes and with heavy-duty, integrated casters the Privacy Booth can easily be moved inside the office.
